workshop purpose

Fierce Conversations® teaches attendees how to ignite productive dialogue that interrogates reality, provokes learning, resolves tough challenges and enriches relationships. It’s the place to begin, the cornerstone of great leadership, healthy cultures, intelligent strategies and whole-hearted execution.

description

The simplest definition of a fierce conversation is one in which we come out from behind ourselves, into the conversation, and make it real. While many fear real, it is the unreal conversations that ought to concern us because they are incredibly expensive.

Once you’ve tasted this illusive thing called candor, served up with intelligence, passion and skill, all possibilities will expand and, when sustained, will revolutionize your culture.

we are not neutral

At Fierce, we believe that the conversation is the relationship. Careers and companies succeed or fail, one conversation at a time. Conversations are the work horses of an organization. The central function of any team member is to engineer productive, spirited dialogue that reveals we are capable of original thought and provides clarity and impetus for change and results.

Our focus is on performance – individual and organizational. On uncovering and addressing core issues. On action and impeccable execution, which delivers to an organization’s bottom line.

Our practice creates alignment, collaboration and effectiveness in an organization and the healthier financial performance that directly results from it.
