## Supervisors

When approving timesheets that include Work Share hours, the Total Hours column will only include work time (clock or work in/out). Work Share hours will be listed in the Leave Hours column. For example, an employee with a .75 FTE in a month with 168 work hours will show 126 hours in the Total Hours column, 126 hours in the Regular Hours column, and 42 hours in the Leave Hours column:
