

## **Postdoctoral Position Available at Dr. Valtcho D. Jeliaskov's Lab at Oregon State University**

Oregon State University's Dr. Valtcho D. Jeliaskov's lab is currently seeking candidates for a Postdoctoral position.

The selected Postdoctoral Scholar will play a pivotal role in advancing a research project titled, "Discovery of Natural Products as Sprout Inhibitors for Organic Potato and Development of Methods for Their Application." Key research activities include:

- Setting up studies in controlled environments
- Developing microencapsulation techniques for essential oils
- Testing the efficacy of microencapsulated essential oils as sprout inhibitors
- Assessing the impact of specific encapsulated essential oils on potato tuber chemistry and flavor.

Candidates with a keen interest in these areas are encouraged to apply immediately.

Application Instructions: The following application materials should be emailed to Valtcho Jeliaskov ([Valtcho.jeliaskov@oregonstate.edu](mailto:Valtcho.jeliaskov@oregonstate.edu)) with the email subject of "Postdoc Position Application". Please include the following materials in one pdf file:

- 1) 1-2 page cover letter describing general research and career interests
- 2) CV
- 3) List of 3 professional references with contact information
- 4) Two representative published manuscripts from your previous work (if available)
