

## Did you know...

Research shows saving for higher education helps make children believe they can attain it. At the Oregon College Savings Plan, we're here to help you get them started on the path to success!

Kids who know they have a college savings account (even a small one) are 2.5 times more likely to go and graduate from college.\* In fact, low-to moderate-income children with under \$500 saved for college are 3 times more likely to go to college and 4.5 times more likely to graduate than those with nothing set aside for college.
