This spectrum, with the exception of the Domestic Equity category, is based on Fidelity’s analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options’ Morningstar categories as of 08/31/2020. Morningstar categories are based on a fund’s style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options’ objectives and do not predict the investment options’ future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.

Fidelity Freedom® Index 2010 Fund - Institutional Premium Class

VRS Code: 002766

**Fund Objective:** Seeks high total return until its target retirement date. Thereafter, the fund’s objective will be to seek high current income and, as a secondary objective, capital appreciation.

**Fund Strategy:** Designed for investors who anticipate retiring in or within a few years of the fund’s target retirement year at or around age 65. Investing primarily in a combination of Fidelity domestic equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds), each of which (excluding any money market fund) seeks to provide investment results that correspond to the total return of a specific index. Allocating assets among underlying Fidelity funds according to a “neutral” asset allocation strategy that adjusts over time until it reaches an allocation similar to that of the Freedom Index Income Fund approximately 10 to 19 years after the target year. Ultimately, the fund may merge with the Freedom Index Income Fund. Vanguard Inflation-Protected Securities Fund Admiral Shares

VRS Code: 849268

**Fund Objective:** The investment seeks to provide inflation protection and income consistent with investment in inflation-indexed securities.

**Fund Strategy:** The fund invests at least 80% of its assets in inflation-indexed bonds issued by the U.S. government, its agencies and instrumentalities, and corporations. It may invest in bonds of any maturity; however, its dollar-weighted average maturity is expected to be in the range of 7 to 20 years. At a minimum, all bonds purchased by the fund will be rated investment-grade or, if unrated, will be considered by the advisor to be investment-grade.

**Fund Risk:** The interest payments of TIPS are variable, they generally rise with inflation and fall with deflation. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking potential returns primarily in the form of interest dividends and who can tolerate more frequent changes in the size of dividend distributions than those usually found with more conservative bond funds.

Vanguard Mid-Cap Index Fund Institutional Shares

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Vanguard Selected Value Fund Investor Shares

VRS Code: 893576

Fund Objective: The investment seeks long-term capital appreciation and income.

Fund Strategy: The fund invests mainly in the stocks of mid-size U.S. companies, choosing stocks considered by an advisor to be undervalued. Undervalued stocks are generally those that are out of favor with investors and are trading at prices that the advisor believes are below average in relation to measures such as earnings and book value. These stocks often have above-average dividend yields. It uses multiple investment advisors.

Footnotes:

• Weighted average maturity (WAM) is the weighted average of all the maturities of the securities held in a fund. WAM for money market funds can be used as a measure of sensitivity to interest rate changes. Generally, the longer the maturity, the greater the sensitivity. WAM for money market funds is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening devices, such as demand features and interest rate resets. For bond funds, WAM can be used as a measure of sensitivity to the markets. Generally, the longer the maturity, the greater the sensitivity. The WAM calculation for bond funds excludes interest rate resets and only takes into account issuer call options if it is probable that the issuer of the instrument will take advantage of such options.

**Voya STABILIZERSM**

**VRS Code:** 843316

**Fund Objective:** To provide book value liquidity, preservation of principal, and steady growth over time without daily fluctuation.

**Fund Strategy:** Voya Stabilizer is a separate account group annuity contract (the “Contract”) that guarantees a minimum rate of interest and may credit a higher interest rate from period to period. The credited interest rate is subject to change, but will never fall below the guaranteed minimum. The investment option is backed by a separate account of Voya Retirement Insurance and Annuity Company (“VRIAC”). This diversified separate account portfolio consists of publicly traded, high quality, fixed income instruments, including mortgage pass-through securities, and commercial mortgage backed securities. Guarantees are subject to the claims paying ability of VRIAC.

**Fund Risk:** The investment option is backed by a separate account, which is a diversified portfolio of fixed-income assets. Guarantees are subject to the claims paying ability of the issuer. Restrictions or fees may apply to exchanges or withdrawals. The Contract provides for the payment of certain withdrawals and exchanges at book value during the term of the Contract. In order to maintain the Contract issuer’s promise to pay such withdrawals and exchanges at book value, the Contract subjects the investment option and its participants to certain restrictions. Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to “compete” with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer’s promise to pay certain withdrawals and exchanges at book value. Unless the participant is age 65 or older on the date of the transfer request, a 4% charge will be applied against a participant’s account for a transfer from Stabilizer to an investment option offered by a competing platform, such as another OUS plan provider, if the transfer, when combined with other similar transfers, exceeds 15% of the participant’s Stabilizer balance as of the previous December 31. Please contact Fidelity for more information.
